Revue de presse

'Written in playful rhyming verse, it's joyfully illustrated by the genius of David Roberts.' --Huffington Post

'Ada Twist, Scientist is the tale of a persistently curious young girl in this brilliant picture book, written by Andrea Beaty and illustrated by David Roberts [...] This is definitely one of my favourite children's books of 2016. I think you'll be hard pressed to find a more satisfying example of a picture book to enjoy' --Sam Hearn, author

'This is a beautifully illustrated rhyming story about a family learning to support a child's curiosity. Ada is a likeable character who has all the traits of a great scientist. The book responds well to the call for greater representation of girls and diversity in STEM subjects and industries (Science, Technology, Engineering and Mathematics). Indeed Andrea Beaty says she took her inspiration from Ada Lovelace, the mathematician and very first computer programmer, and Marie Curie, who discovered the elements polonium and radium, whose work led to the invention of X-rays. The book is fun to read and should inspire children to follow their passions.' --The English Association Présentation de l'éditeur

**Shortlisted for the 2017 English 4-11 Picture Book Awards and the 2017 Teach Primary New Children's Fiction Awards** Iggy Peck and Rosie Revere have earned their places among the most beloved children's characters and have inspired countless kids and adults to follow their passions. Determined Ada Twist, with her boundless curiosity for science and love of the question Why?, is destined to join these two favourites. Like her classmates Iggy and Rosie, Ada has always been hopelessly curious. Why are there pointy things stuck to a rose? Why are there hairs growing inside your nose? She embarks on fact-finding missions and conducts scientific experiments, all in the name of discovery. When her house fills with a horrific, toe-curling smell, Ada knows it's up to her to find the source. But, this time, her experiments lead to trouble. Biographie de l'auteur
