Introduction

Where Are the Children ? was my first suspense novel and the book that really changed my life.

I had written before and actually made a living for a time doing scripts for radio shows. I had also published some short stories, but while they were fun and gratifying, they didn't pay the bills, so I decided to try my hand at a real book.

My first effort was a biographical novel about George Washington; it took three years to write, was published invisibly, and went directly to the remainder tables as it came off press. That didn't faze me - I considered it a triumph. After all, it was published. Triumph or no, however, I sincerely wanted my next book to sell.

It was at that point that I studied my bookshelves and realized that from the time I was first able to read, whenever possible I had chosen to curl up with suspense stories. Clearly they were my favorite kind of fiction. I had begun with books featuring girl detectives like Judy Bolton and Nancy Drew ; from them I had moved on to Agatha Christie, Josephine Tey, Ngaio Marsh, Charlotte Armstrong, Mignon Eberhart and Daphne du Maurier, to name just a few.

Mais un matin, un article paraît sur l'affaire Harmon, avec justement la photo d'une jeune femme qui ressemble fort à Nancy. Le jour même, ses enfants sont enlevés alors qu'ils jouent à la balançoire. La police mène l'enquête, et soupçonne Nancy à cause de son passé, mais à tort...
